# CODISSIA to conduct RAW MAT INDIA 2019 raw materials expo

RAW MAT INDIA 2019 organisers addressing the press

**COIMBATORE SEP 13** The maiden edition of nation's prime resources Expo "RAW MAT INDIA 2019" is being organised by Coimbatore District Small Scale Industries Association (CODISSIA) on September 18, 19 and 20 at CODISSIA Trade Complex.

RAW MAT INDIA, will be first of its kind to showcase resources such as raw materials, inputs, consumables and services said CODISSIA chairman Dr. C. Senthil Kumar in a statement. He further stated that Coimbatore region being a major consumer of raw materials, inputs and services.

RAW MAT INDIA which brings together buyers and suppliers used in Industries on daily basis. Coimbatore has capability in the following areas: • Foundries Industries • Stainless steel, Steel, Copper, Aluminium Tubes & Bars • Recyclables • Defence Material suppliers • Automation • Rubber • Heat Treatment • Hot & Cold Forging • Hydraulics Industries • Material Testing Facility • Medical Machinery manufactures • Pneumatic Industries • Compressor.

Manufacturing • Electrical & Electronics • Coir Industries • Sheet Metal Forming • Heavy and Light Fabrication • Tool Room • Rapid Proto Typing • Software • Special Coating and Painting • Packaging • Designing • Wood working industries • Plastic Industries.

RAW MAT INDIA 2019 will have the participation of 82 companies from places like New Delhi, West Bengal, Maharashtra, Kerala, Puducherry and Tamilnada, displaying raw materials for various industries.

The fair will be open to visitors from 10.00 am to 06.00 pm on all three days. Mr. P. Udayakumar, (Director Planning & Marketing) Functional Director, NSIC, Government of India, New Delhi has kindly consented to be the Chief Guest during the Inauguration of this event.

Mr. R. Pannerseelvam, Principal Director, MSME Technology Development Centre, PPDCC, Agra and Mr. D. Dhanaavel, Chief Commercial Officer, Vedanta Sterlite Copper have consented to be the Guests of Honour during the occasion. Vedanta Sterlite Copper is the Principal Sponsor to this event.

# Buyers, suppliers to come face-to-face at Coimbatore Raw Mat India expo

OUR BUREAU

Coimbatore, September 13

Coimbatore will host the maiden edition of Raw Mat India 2019. The three-day expo, starting September 18, has been organised by Codissia.

"Though we have been planning such an event for close to a year now, the timing has turned out to be perfect as the industrial slowdown is taking a toll on micro, small and medium enterprises. MSMEs do not have the bargaining power or the wherewithal to tide over a highly volatile raw material price environment. The government should intervene and fix a benchmark price," said Codissia President R Ramamurthy, on the sidelines of a meeting to announce the conduct of Raw Mat India 2019.

The effort is aimed at bringing buyers and suppliers of materials (used by the industry on a daily basis) under one roof. A range of industries such as automobiles, textile, engineer-

ing, foundry, electrical and electronics, infrastructure, information technology, agriculture, Railways, aviation, oil and gas, and defence, are expected to benefit from the expo.

Over 80 companies from places such as New Delhi, West Bengal, Maharashtra, Kerala, and Puducherry, besides Tamil Nadu, have confirmed participation. "There will also be an exhibitor from South Korea," he added.

The expo is expected to generate business worth over ₹150 crore.

The event is being supported by NSIC, Mumbai Metal and Stainless Steel Merchants Association, Bombay Non-Ferrous Metals Association, Indian Resins Manufacturers Association, Materials Recyclers Association of India, and MSME Technology Development Centre.

Vedanta Sterlite Copper is the Principal Sponsor and Arkkays National Engineering and Foundry Co, Chennai, the

diamond sponsor of this event. P Udayakumar (Director, Planning and Marketing), Functional Director, NSIC, is to inaugurate the event, while R Pannerseelvam, Principal Director, MSME-TDC, and D Dhanaavel, Chief Commercial Officer, Vedanta Sterlite, will be the Guests of Honour.

Codissia plans to make this a biennial event. The venue of Raw Mat is the Codissia Trade Fair Complex here.

# CODISSIA's first raw material expo launched

Coimbatore: CODISSIA's maiden expo for raw materials RAWMAT was launched on Wednesday. National Small Industries Corporation Functional Director P Udayakumar and talked about how digital and artificial intelligence are going to play a vital role in future; he advised MSME industrialists to focus on it. Agra MSME Technology Development Centre's Principal Director R Pannerseelvam talked about the role solar energy will have in the future and said that the government is showing more interest in this sector now. Expo Chairman C B Senthil Kumar, CODISSIA President R Ramamurthy were also present.

# Codissia to conduct 'Raw Mat India-2019' from September 18

Organisers expect business turnover of about ₹150 crore

STAFF REPORTER COIMBATORE

In an effort to make the Micro, Small and Medium Enterprises (MSME) more competitive in Coimbatore, the Coimbatore District Small Scale Industries Association (Codissia) will organise 'Raw Mat India-2019' at the Codissia Trade Fair Complex from September 18-20.

The expo will showcase resources such as raw materials, inputs, consumables and services.

**More competitive** Speaking to reporters here on Thursday, president of Codissia R. Ramamurthy said that the expo would make their members more competitive as it would provide an opportunity for the MSMEs to know where the raw materials come from and its various suppliers.

"The maximum consumption of raw materials are done by MSMEs," he noted.

Chairman of the expo C.B. Senthil Kumar said that the event would also seek to improve the availability of raw materials to the MSMEs.

**Grading** Noting that the disadvantage faced by most MSMEs was not being able to obtain proper grade for raw materials, Mr. Kumar said that this expo would provide an opportunity for buyers to demand the grade they required.

Responding to media-persons question on Vedanta Group of Companies being announced as the principal sponsor for the expo, Mr. Ramamurthy said that they are only participating to exhibit their raw materials.

"We [Codissia] is always for the environment," he said. Noting the fluctuations in the prices of raw materials in the recent past, he said that Codissia was in favour of a benchmark price for the

raw materials. According to a press release, Raw Mat India-2019 would see the participation of 82 companies across the country displaying raw materials for various industries.

The expo would also feature raw materials (including heets, plates, tubes), input materials (including ferro alloys, inoculants and binders), consumable materials, chemical materials, fasteners, finishers, deposition and packaging materials, the release said.

Two Central government institutions - MSME Technology Development Centre, Process and Product Development Centre (PPDC), Agra and National Small Industries Corporation (NSIC) - would support the expo.

About 10,000 visitors are expected to visit the fair and a business turnover of about ₹150 crore are expected by the organisers, the release said.

# Raw material expo seeks to bring in competitive prices

TIMES NEWS NETWORK

Coimbatore: Price and availability of raw materials, the most important entity in industry, have always been volatile, say industrialists from the city. To bring in more sources of raw materials and to make it available at competitive prices, the Coimbatore District Small Industries Association (Codissia) would conduct 'Raw Mat India 2019', a national raw material expo, at Codissia Trade Fair Complex in the city from September 18 to 20.

Briefing about the expo, which is being held for the first time, Codissia representatives said this would be one of the first trade fairs in the country to focus exclusively on raw materials. Usually MSMEs could

not offer products for competitive prices as they could not source raw materials for competitive prices, said R Ramamurthy, president of Codissia. "This expo would bring in more options to buy raw materials from. MSMEs could choose the best quality they need and for competitive prices," he said.

Chairman of the expo C B Senthil Kumar said 86 companies have signed to exhibit their wares at the expo and it comprises companies from across the country and one South Korean company. "The expo would have raw materials, input materials and consumables. There are materials which have a daily usage in industry. The availability of such materials should be increased. Pro-

per grades should be available. Now industries get nearby grades and convert it to their required grades," he said. Representatives said the expo would showcase non-ferrous raw materials such as copper, brass and bronze, which are not easily available to MSMEs now. It would also showcase materials such as monel and Inconel used in defence manufacturing. Speaking of the raw material situation now, Ramamurthy said the price went up 20-25% post GST and after April it came down because of lesser demand due to the slowdown. He said they have been seeking a benchmark price for raw materials with a variation margin of 5-10% to check artificial price hike.

# 'Govt. must introduce support schemes for raw materials'

A mechanism to ensure price stability of raw materials will help MSMEs: NSIC Director

The Central government support schemes for raw materials to improve the availability of raw materials to the MSMEs, said P. Udayakumar, Director Planning and Marketing, National Small Scale Industries Corporation (NSIC), on Wednesday. He was speaking at the inauguration of Raw Mat India 2019, a national raw material expo, at Codissia Trade Fair Complex in the city on Wednesday. Udayakumar said that the government should introduce support schemes for raw materials to improve the availability of raw materials to the MSMEs. He said that the government should also introduce a mechanism to ensure price stability of raw materials. He said that the government should also introduce a mechanism to ensure price stability of raw materials.

materials at least every six months to keep up with changing needs of various industries. He said that the government should also introduce a mechanism to ensure price stability of raw materials. He said that the government should also introduce a mechanism to ensure price stability of raw materials.

Govt. must introduce support schemes for raw materials

# Soon, an online aggregator for raw materials, services

Coimbatore: The National Small Industries Corporation (NSIC) is planning to launch an online aggregator for raw materials and services. The aggregator will help MSMEs to source raw materials and services from various suppliers. The aggregator will also help MSMEs to compare prices and quality of raw materials and services. The aggregator will be launched in the next few months. The aggregator will be available on the NSIC website. The aggregator will be available on the NSIC website.

# Testimonial

We commend the CODISSIA leadership team on an extremely well-organized event, RAW MAT INDIA 2019, which provided us with a wonderful platform to share space with the leading names in the industry and benchmark best practices on multiple operational areas. The well-attended event was an opportunity to highlight the various aspects of Vedanta's global operations being a key catalyst for industrial activities in Tamilnadu particularly. We look forward to further opportunities to collaborate and wish you all success in future editions of the event!

D. Dhanaavel  
Chief Commercial Officer  
Vedanta Limited - Unit : Sterlite Copper

We thank the organizing team and everyone involved in making the RAW MAT INDIA 2019 fair a grand success. We expect all the other editions of Raw Mat India be as successful as this one
